

HOPE WALKS
FREEDOM FROM CLUBFOOT

Hope Abounding

FY 2020 ANNUAL REPORT

May the God of hope
fill you with all joy and
peace in believing so
that by the power of
the Holy Spirit you may
abound in

hope.

ROMANS 15:13

MESSAGE FROM THE PRESIDENT

Hope. It's a word that took on new significance in 2020 due to a global pandemic. You may have found you were using it more as you hoped for the end of COVID or you hoped for things to improve. In some cases you may have felt like your hope was being deferred.

At Hope Walks, we use the word hope quite a bit. It's in our name after all. Hope – it's what you give to the families we serve. Hope – it's what our families cling to as they look for a physical transformation for their child born with clubfoot.

For Vonja in Haiti, hope is what gave her the courage to travel over rough seas by boat from her home island to get her daughter clubfoot treatment on the mainland.

Pastor Edmond, one of our parent advisors in Burkina Faso, had hope so great that he was willing to ride his motorcycle 59 miles over rough roads just to ensure little Grace got her brace in the midst of a global pandemic. When questioned why he would do such a thing for a little girl he hardly knew, Pastor Edmond seemed surprised. "I reminded them that it was our duty, because of God's love, to do everything we could to heal children born with clubfoot. And if our donors sacrifice themselves to finance the activities of Hope Walks, we too have a duty to make sacrifices for the good of children in Burkina."

Hope is what pushes us forward to create new clinic partnerships in other parts of the world so more children will walk free of clubfoot. This year we had planned to partner with a clinic in Sudan, but the pandemic has delayed the process. Our hope remains strong, and we continue to press on to open it as soon as possible.

So while 2020 may have turned out differently than all of us expected, for us it has been one abounding in hope. Despite temporary clinic closures, travel bans and supply shortages, you, our amazing supporters, have come through and God has been overwhelmingly faithful.

Thank you for standing with us. You also have given us hope.

In Hope,

Scott Reichenbach | PRESIDENT

Stories of *Impact*

Isabella

DOMINICAN REPUBLIC

One of the most common comments from parents of children with clubfoot is their extreme feeling of isolation. Most have never seen the disability and assume it does not affect others. That's how Arianny felt when her daughter Isabella was born with clubfoot. Once she found the Hope Walks partner clinic and all of the other kids being successfully treated, her feelings of loneliness melted away.

"When I started to interact with other mothers and share experiences, I realized I wasn't the only one suffering. They got their hope back, and I could too!"

Niko

MOZAMBIQUE

COVID has impacted so many of the stories we heard this past year. Taking her son Niko to the clubfoot clinic used to take Matilde two bus transfers. The pandemic forced them to sometimes make four bus connections to get to the clinic on time. Hope drove Matilde forward despite these challenges to make sure her son got the clubfoot treatment he needed.

But if we *hope* for what we do not see, we wait for it with patience.

ROMANS 8:25

Stories of Impact

Ibrahim

NIGER

Clubfoot is a challenge for any family. When Houzeifatou's son was born with clubfoot this young woman's world was completely turned around. The care her son needed in those early days took Houzeifatou from her studies, but the entire process gave her new knowledge about how God views deformities.

"I understand now that God doesn't see things, especially deformities, the way we see them," Houzeifatou said. "I have another view of God through clubfoot counseling."

YOUR GLOBAL OUTREACH

YOUR IMPACT in FY 2020

5,445
New children enrolled

55,962
Follow-up phone calls

88%
New children starting treatment under age 1

69,503
Clinic visits

4,928
Children receiving first brace

727
Home visits

But I will *hope*
continually
and will praise you
yet more and more.

PSALM 71:14

THEORY OF CHANGE

ACTIVITIES & INPUTS

- Educate & support parents
- Establish partnerships
- Promote early referral
- Train & mentor
- Establish clinic networks

OUTPUTS

- Quality supplies distribution
- Children treated
- Counseling, home visits, phone calls
- Training & awareness events
- National program structure
- Clinic visits

INTERMEDIATE OUTCOMES

- Exposure to God's love
- Early referral & effective treatment
- Community awareness & engagement
- Competent clinicians
- Supportive partnerships

LONG-TERM OUTCOMES

- Freedom from clubfoot disability
- God's love experienced
- National health system strengthened

OUR IMPACT

- A world free of disability from clubfoot
- God is glorified & families place their hope in Christ

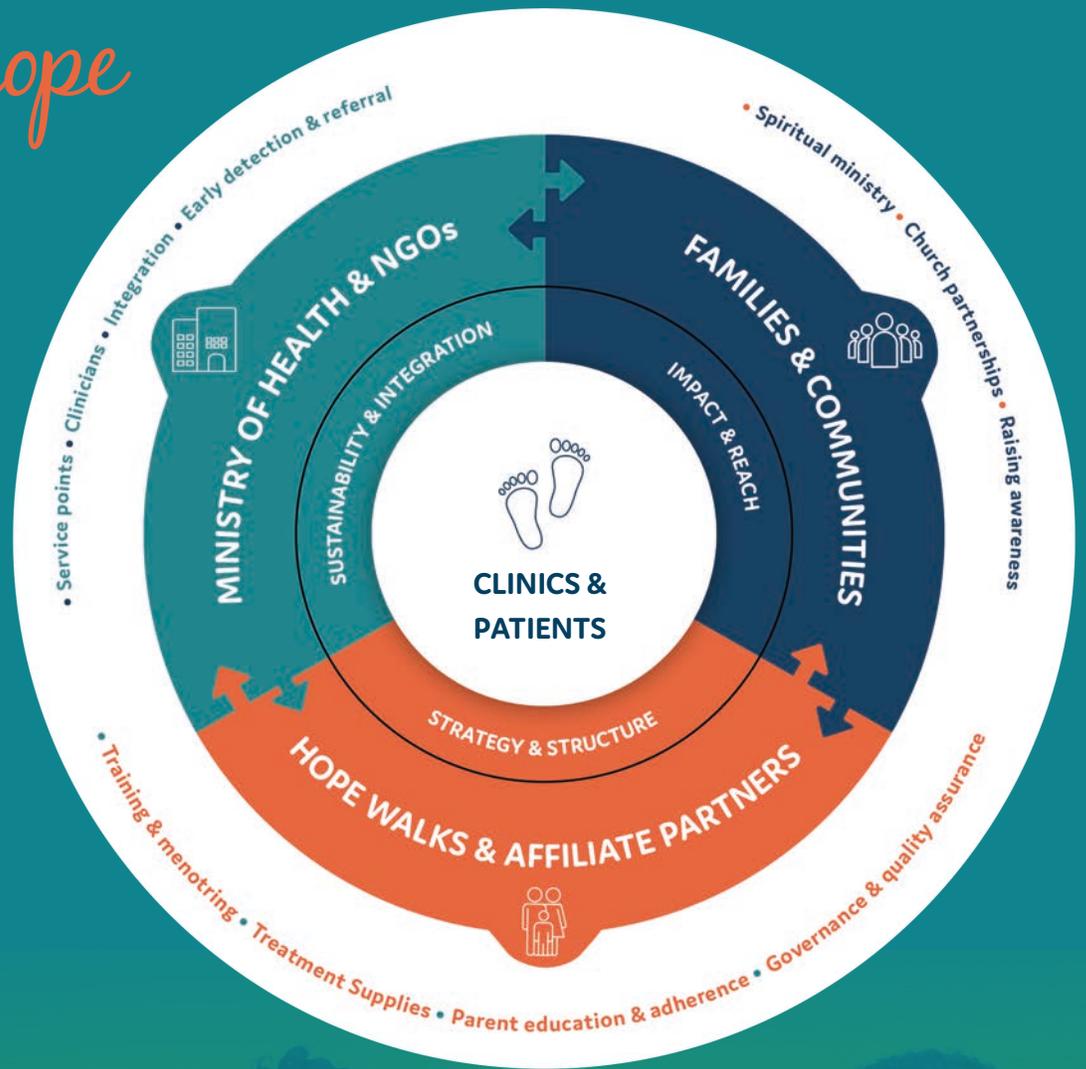

ENABLERS

- Sufficient funding
- Country stability
- Capable & willing partners
- Appropriate staffing
- Effective leadership & governance

Surely there is a future, and your *hope* will not be cut off.

PROVERBS 23:18

We believe partnerships and local leadership are foundational for successful, long-term impact. We take an integrated approach to implement clubfoot treatment in the national healthcare system by working with a network of stakeholders. Through our collective efforts, we leverage each one's strengths to serve the clinics and patients.

Finances | Fiscal Year 2020

Administration
\$151,532

Fundraising
\$247,962

1. We are extremely grateful for the in-country support from the Ministries of Health who provide the healthcare staff and dedicated space and overhead to facilitate the framework provided through the training and materials ensured by Hope Walks.

2. Through training and support provided by Hope Walks, numerous partners help ensure quality care and raising awareness that clubfoot is a treatable disability. We are thankful for their partnership and continued efforts to see all kids walk free from disability.

3. We are grateful for the generous support which has enabled investment in fundraising to help Hope Walks launch as an independent organization.

Give Hope

Hope walks is a group driven by dignity and compassion for vulnerable children and their families, committed to ending the treatable disability of clubfoot through local health partners, and showing the love of Christ with tangible actions, not just empty words.

**WE INVITE YOU TO BE PART
OF THIS LIFE-TRANSFORMING
MISSION THROUGH YOUR
PRAYERS AND FINANCIAL
SUPPORT.**
